How to Stop Other Adults from Ruining Your Child's Fun and Success in Youth Sports

Explore the history and cultural impact of a groundbreaking television show adored by old and new fans alike: Buffy the Vampire Slayer. Over the course of its seven-year run, Buffy the Vampire Slayer cultivated a loyal fandom and featured a strong, complex female lead, at a time when such a character was a rarity. Evan Ross Katz explores the show 's cultural relevance through a book that is part oral history, part celebration, and part memoir of a personal fandom that has universal resonance still, decades later. Katz—with the help of the show 's cast, creators, and crew—reveals that although Buffy contributed to important conversations about gender, sexuality, and feminism, it was not free of internal strife, controversy, and shortcomings. Men—both on screen and off—would taint the show 's reputation as a feminist masterpiece, and changing networks, amongst other factors, would drastically alter the show 's tone. Katz addresses these issues and more, including interviews with stars Sarah Michelle Gellar, Charisma Carpenter, Emma Caulfield, Amber Benson, James Marsters, Anthony Stewart Head, Seth Green, Marc Blucas, Nicholas Brendon, Danny Strong, Tom Lenk, Bianca Lawson, Julie Benz, Clare Kramer, K. Todd Freeman, Sharon Ferguson; and writers Douglas Petrie, Jane Espenson, and Drew Z. Greenberg; as well as conversations with Buffy fanatics and friends of the cast including Stacey Abrams, Cynthia Erivo, Lee Pace, Claire Saffitz, Tavi Gevinson, and Selma Blair. Into Every Generation a Slayer Is Born engages with the very notion of fandom, and the ways a show like Buffy can influence not only how we see the world but how we exist within it.

You may know him as Mango, Mr. Peepers, the gibberish-spouting Suel Forrester, or one half of the head-bopping brothers in A Night at the Roxbury. Maybe you remember him as the forlorn gothic kid Azrael Abyss, Gay Hitler, or the guitarist in the "More Cowbell" sketch. Whichever it is, Chris Kattan has earned a spot in the hearts of a generation of comedy fans. Chris Kattan has defied comparison, expectations, and sometimes gravity with his inimitable style of physical comedy. By creating some of the most memorable Saturday Night Live characters, as well as his many roles in film and television, Kattan has remained one of the most fearless and versatile comedians in the world. Not long after Chris was labeled one of the improv group Groundlings' "must-see" performers in the company, he was cast on SNL—and within the first six weeks, Chris's film career also took off. Now, for the first time, Kattan opens up about eight seasons on SNL, performing alongside friends and future legends including Will Ferrell, Jimmy Fallon, and Tina Fey, and guest hosts from Charlize Theron to Tom Hanks to David Bowie. He also shares stories of his unusual childhood (involving a secluded mountain with zen monks) with Leonard Cohen and Alan Watts. Baby, Don't Hurt Me offers an unprecedented look into Chris's life, from his fascinating relationship with Lorne Michaels, a private Valentine's Day dinner with Tom Cruise and Katie Holmes, an unforgettable flight with Beyoncé, and even breaking his neck on live television. Baby, Don't Hurt Me is a candid, revealing memoir from a timeless comedian and a window into the world of millennium-era SNL, from the rehearsals to the after-after parties, as narrated by your hilarious and inspiring friend—who just so happened to be there for all of it.

In this book, the only of its kind, two German League certified coaches have created the ultimate guide to passing. Using the " Hyballa-te Poel-Passing-Puzzle, " they present every type of pass there is in modern soccer, with lots of drills for each type. From the goalkeeper to the center forward, everyone can learn passing with these exercises.

One of the most effective ways to improve your chess Pattern recognition is one of the most important mechanisms of chess improvement. It helps you to quickly grasp the essence of a position on the board and find the most promising continuation. In his instant classics Improve Your Chess Pattern Recognition (2014) and Train Your Chess Pattern Recognition (2016) International Master Arthur van de Oudeweetering presented building blocks for experienced club players which often involved notable exceptions to a set of fundamental guidelines. To appreciate these books you had to know these basic principles. Chess Pattern Recognition for Beginners provides this knowledge. It teaches the most important patterns you need to know in order to develop and mobilize your pieces, manoeuvre your pawns into positions of strength, put pressure on your opponent, attack the enemy king, and execute standard sacrifices to get the initiative. Ambitious beginners and post-beginners who study this book will soon experience a significant improvement in their results.

Through drills, situations, instruction and questioning, Developing Basketball Intelligence demonstrates how to teach game awareness and basketball intelligence. DBI explains the basic tactical skills of every offense - from pick-and-rolls to 3v2 fast breaks - but moves beyond the skill execution to the all important perceptual, anticipatory and decision-making skills which separate the expert performers. Developing Basketball Intelligence teaches tactical skills, but also develops the characteristics of a high basketball IQ player, players who: * choose the best option in less time; * adapt to ever-changing situations; * possess good spatial awareness; * know the right play at any moment relative to the time and score; * and more. Developing Basketball Intelligence is a tool to develop your offensive system as a coach, and to create a learning environment which enhances your players' understanding so they can read and react and adjust and adapt on the court.

What exactly is a shadow? Is it light tracing an object or the shape a body throws when it comes between a light source and a surface? Is it a metaphor for the intimate, darker side of a person's nature-as Carl Jung postulated-and the unconscious side of one's self, where demons and secrets are kept hidden or repressed? Is it an allegorical place between darkness and light, death and living? Or is it a state of illusion, like Plato's cave? Is it a verb that means to follow or accompany, or even to spy on? Shadows, a new collaborative series by Alexandra Grant and Keanu Reeves, explores the real and symbolic nature of the shadow as image and figure of speech. Grant's photographs capture Reeves's shadow at times as a silhouette and at others as traces of light as he and the camera move together. In transforming the images into color and reversing light for dark, Grant has made the shadows themselves the source of light. Reeves's texts, written in tandem with the creation of the images, give voice to the multiple manifestations of the shadow: as a projected figure, a place of concealed emotion and an invocation to shadow play.

First-round NBA draft pick, part-time NBA scout and youth coach Bob Bigelow joins journalists Tom Moroney and Linda Hall to put youth sports under harsh review. In this inspirational yet practical book, the man Parade called "the most important coach in America," subject of the national bestseller *Season of Life*, Joe Ehrmann, describes his coaching philosophy and explains how sports can transform lives at every level of play, from the earliest years to professional sports. Coaches have a tremendous platform, says Joe Ehrmann, a former Syracuse University All-American and NFL star. Perhaps second only to parents, coaches can impact young people as no one else can. But most coaches fail to do the teaching, mentoring, even life-saving intervention that their platform provides. Too many are transactional coaches; they focus solely on winning and meeting their personal needs. Some coaches, however, use their platform. They teach the Xs and Os, but also teach the Ys of life. They help young people grow into responsible adults; they leave a lasting legacy. These are the transformational coaches. These coaches change lives, and they also change society by helping to develop healthy men and women. *InSideOut Coaching* explains how to become a transformational coach. Coaches first have to "go inside" and articulate their reasons for coaching. Only those who have taken the *InSideOut* journey can become transformational. Joe Ehrmann provides examples of coaches in his life who took this journey and taught him how to find something bigger than himself in sports. He describes his own *InSideOut* experience, starting with the death of his beloved brother, which helped him understand how sports could transcend the playing field. He gives coaches the information and the tools they need to become transformational. Joe Ehrmann has taken his message about the extraordinary power of sports all over the country. It has been warmly endorsed by NFL head coaches, athletic directors at major universities, high school head coaches, even business groups and community organizations. Now any parent-coach or school or community coach can read Ehrmann's message and learn how to make sports a life-changing experience.
