thermostat will work with any RV Products air conditioner that is controlled with an RV Products Setting the Thermostat zone control box. Page 2 Heat Pump Lockout Note: There is a built-in delay between

Page 2/123

programming and operation of the new program.

(Example: - If the system has both gas heat, (LP furnace or hydronic heat) and changing fan speed to low from high; it will take approximately 20 seconds until

the fan speed
electric heat,
(electric strip
heat or
heatpump)
appliances ...
If you're still
looking for a
relatively
straightforward
RV thermostat
install, but
want something
just a little

bit more
newfangled than
the Mach Manual,
upgrade to the
Coleman Airxcel
8330-3362. It's
still not
anything that'll
remind you of
the Jetsons, but
with its precise
digital
temperature
readout, it's at

least a little
bit more up-to-
date.

All manual
controls have
been removed
from the ceiling
plenum. They
have been
replaced with
control relays.
The relays are
mounted in the
electrical box

of the ceiling plenum. The relays contain 12 VDC coils (which may be energized by a wall mounted thermostat), with contacts that control the 115 VAC used to power the roof top unit.

words start flashing on the LCD, which should be about 5 seconds. Press the ZONE button until Zone 1 is displayed on the LCD.

This thermostat will work with any RV Products air conditioner that is controlled with an RV Products zone control box. A zone

is an area of a motor coach that is climate controlled. This system can control up to four zones in a motor coach. Operation All 9330-33* thermostats function identically. The only difference is the color of the thermostat.

For accurate
