This revised edition takes account of the developments in the law since the first edition was published. The book continues to cover some of the most important rules which regulate the business world, and it seeks to emphasize the role which these rules might play in the planning and execution of business activities, while pointing out that the law is only one influential factor on such activities. The four years since the first edition have seen a considerable number of important developments. Some of the more important include: the Age of Legal Capacity (Scotland) Act 1991, the Competition and Service Utilities Act 1992, the Trade Union Reform and Employment Rights Act 1993, the Sale and Supply of

Goods Act 1994, the Unfair Terms in Consumer Contracts Regulations 1994 and the Requirements of Writing (Scotland) Act 1995.

Excerpt from International Commercial Law, Being the Principles of Mercantile Law of the Following and Other Countries, Viz, Vol. 1: England, Scotland, Ireland, British India, British Colonies, Austria, Belgium, Brazil, Buenos Ayres, Denmark, France, Germany, Greece, Hans Towns, Italy, Netherlands, Norway, Portugal, Prussia, Russia The late gifted and eminent Prince Consort, in a letter addressed to the author on the subject, which appeared in the first edition of this work, said, It cannot be doubted that uniformity in the laws by which commerce is regulated in different countries would be, if it could be Obtained, Of immense advantage to commerce generally. The question would be as to the mode of attaining this uniformity. Nothing, His Royal Highness thinks, would tend more to give public Opinion a proper direction than such a publication as yours, where the legislative enactments of different countries upon the same subject would be found in juxtaposition, and where the ready means thus afforded for comparing their relative merits would infallibly lead to a certain

degree of assimilation, the advantage and convenience of which would be made obvious. Or, should it not lead to this result, the publication would, at all events, afford to the mercantile world the means of knowing the points of difference in the various commercial codes on which it is most important for them to be correctly informed.
