

Second Nature Environmental Enrichment For Captive Animals

Second Nature: Environmental Enrichment for Captive Animals. Growing recognition of the complexity of animals' physical, social, and psychological lives in the wild has led both zookeepers and the zoo-going public to call for higher environmental standards for animals in captivity.

Rise Of The Data Artist *Second Nature Environmental Enrichment For*

Bringing together the work of animal behaviorists, zoo biologists, and psychologists, *Second Nature* explores a range of innovative strategies for environmental enrichment in laboratories and marine parks, as well as in zoos. From artificial fleeing-prey devices for leopards to irregular feeding schedules for whales, the practices discussed have resulted in healthier, more relaxed animals that can breed more easily and can exert some control over their environments.

Second Nature: Environmental Enrichment for Captive Animals. Second Nature. : Conference on Environmental Enrichment 1993 Metro Washington Park zoo. Smithsonian Institution Press, 1998 - Science - 350 pages. 0 Reviews. Growing recognition of the complexity of

animals' physical, social, and psychological lives in the wild has led both zookeepers and the zoo-going public to call for higher environmental standards for animals in captivity.

Second Nature: Environmental Enrichment for Captive ...
Environmental enrichment is a concept that is widely used in zoo and laboratory animals, and to a lesser extent in pet animals, to improve the animals' welfare (Young, 2003).

(PDF) Second nature: environmental enrichment for captive ...

Second Nature also discusses the ways in which environmental enrichment can help zoo-bred animals develop the stamina and adaptability for reintroduction into the wild, and how it can produce healthier lab animals that yield more valid test results. Providing a theoretical framework for the science of environmental enrichment in a variety of settings, the book renews and extends a humane approach to the keeping and conservation of animals.

Second Nature: Environmental Enrichment for Captive ...

The second part on environmental enrichment in animal conservation and welfare has papers on the environmental enrichment and behaviour of specific species or groups including black-footed ferrets ferrets Subject Category: Organism Names see more details, golden lion tamarins (Leontopithecus rosalia), primates primates Subject
