Learn to take ownership of your success, overcome self-doubt, and banish the thought patterns that undermine your ability to feel—and act—as bright and capable as others already know you are with this award-winning book by Valerie Young. It's only because they like me. I was in the right place at the right time. I just work harder than the others. I don't deserve this. It's just a matter of time before I am found out. Someone must have made a terrible mistake. If you are a working woman, chances are this internal monologue sounds all too familiar. And you're not alone. From the high-achieving Ph.D. candidate convinced she's only been admitted to the program because of a clerical error to the senior executive who worries others will find out she's in way over her head, a shocking number of accomplished women in all career paths and at every level feel as though they are faking it—impostors in their own lives and careers. While the impostor syndrome is not unique to women, women are more apt to agonize over tiny mistakes, see even constructive criticism as evidence of their shortcomings, and chalk up their accomplishments to luck rather than skill. They often unconsciously overcompensate with crippling perfectionism, overpreparation, maintaining a lower profile, withholding their talents and opinions, or never finishing important projects. When they do succeed, they think, Phew, I fooled 'em again. An internationally known speaker, Valerie Young has devoted her career to understanding women's most deeply held beliefs about themselves and their success. In her decades of in-the-trenches research, she has uncovered the often surprising reasons why so many accomplished women experience this crushing self-doubt. In *The Secret Thoughts of Successful Women*, Young gives these women the solution they have been seeking. Combining insightful analysis with effective advice and anecdotes, she explains what the impostor syndrome is, why fraud fears are more common in women, and how you can recognize the way it manifests in your life.

“If you want her loyalty and her love, direct her, lead her, reward her, but first understand her and you will keep her attention and her dedication.” -The Minister Of Manhood There's a solid explanation why she does what she does and why most women exhibit the same thoughts, actions and behaviors, but that reason “why” often is a secret to most men and even her. The obvious fact is men and women don't think the same. These differences in thinking lead to men getting manipulated because they use logic to understand her behaviors, while she thinks and moves with sometimes unexplainable emotion. For example, she can't tell you that she's not in love with you, and that she's really in love with the feelings of love and when that feeling of love is gone she will also. Or that she tests you to test your toughness masculinity, or that she asks you questions that she already knows the answer to, just to see if you'll be honest or just agree with her out of fear. Women think, act, date and see relationships much differently than men. So if you want uncommon success with women you have to learn to see her from a female perspective. This is why statistically women leave the marriage and the relationship 65% of the time leaving the man hurt and abandoned because he didn't understand what she “really” wants from him. So if you're tired of losing women to other men and sometimes women lol it's time to discover the secrets of the mind of a woman. Beauty is God given, and seduction is hard to resist. So if you're not prepared she'll outsmart you easily by using her cunning nature to gain control of your mind and your behaviors. This will be one of the most important and easy to understand books about women that you'll ever read! If you use it right as a reference guide you'll always stay one step ahead of her thinking and manipulation. Here's just a small taste of the incredibly important things you'll learn: -Understand The Goal And Purpose Of Feminine Energy -Understand The Mind Of A Woman -Women Build Bridges To The Next Man -Why All Women Are Freaks -The Only Reasons Why She Goes To Bars And Clubs -Why She Always Runs Back To Her Ex -Why Women Are Addicted To Social Media -The Reason Most Women Act, Dress And Want The Same Things -The 2 Ways Women Control Men & how She Does It -Why Women Are Built To Use Weak Men -How To Understand Female Manipulation And Why She Does It -The All In, All Out Trick She Uses To Get You Hooked On Her And So Much More

Women's bodies and the study of anatomy in Italy between the late thirteenth and themid-sixteenth centuries.

The Canadian first lady of Iceland pens a book about why this tiny nation is leading the charge in gender equality, in the vein of The Moment of Lift. Iceland is the best place on earth to be a woman—but why? For the past twelve years, the World Economic Forum's Global Gender Gap Report has ranked Iceland number one on its list of countries closing the gap in equality between men and women. What is it about Iceland that enables its society to make such meaningful progress in this ongoing battle, from electing the world's first female president to passing legislation specifically designed to help even the playing field at work and at home? The answer is found in the country's sprakkar, an ancient Icelandic word meaning extraordinary or outstanding women. Eliza Reid—Canadian born and raised, and now first lady of Iceland—examines her adopted homeland's attitude toward women: the deep-seated cultural sense of fairness, the influence of current and historical role models, and, crucially, the areas where Iceland still has room for improvement. Throughout, she interviews dozens of sprakkar to tell their inspirational stories, and expertly weaves in her own experiences as an immigrant from small-town Canada. The result is an illuminating discussion of what it means to move through the world as a woman and how the rules of society play more of a role in who we view as equal than we may understand. What makes many women's experiences there so positive? And what can we learn about fairness to benefit our society? Like influential and progressive first ladies Eleanor Roosevelt, Hillary Rodham Clinton, and Michelle Obama, Reid uses her platform to bring the best of her nation to the world. Secrets of the Sprakkar is a powerful and atmospheric portrait of a tiny country that could lead the way forward for us all.

How to Attract Men Worth Dating and Get the Guy You Really Want When it comes to finding a suitable mate for a passion filled, committed relationship, one of the things men want most in a woman is self-possession, or said another way, womanly poise. When high-quality men come across a woman with poise they crave her respect, her approval, and most importantly, her love. Men like this understand that a woman's poise reflects her self-worth. And they know that a woman can only act with poise when she's placed a higher importance on her dignity and well-being than she does on ANY man. It is this unique female attitude that drives a man wild with sustainable desire, the kind of desire that makes him eager to commit to a woman and claim her as his own. How to Attractively Set Standards with a Man and Make Him Want You Even More When a woman lacks poise she generally gives too much of herself, and usually at the most ineffective times when dating a man. She is too lenient with men in the beginning stages of a new romance, and she's prone to compromising her standards just to keep a man in her life. Women like this unknowingly chase men, as they become frantic, frustrated, and foolhardy whenever the guy they want begins to pull away or lose interest in them. A woman with poise never chases or throws herself at a man, nor does she make things easy for him by clearing her schedule "just in case" he calls or comes around. Instead, a woman with poise maintains her mystery, sticks to her standards, and uses her feminine charms to invite men to either pursue her passionately or leave her alone. How to Date like a High-Value Woman and Be Irresistible to Mr. Right It's easy to show class and character when things are going your way with a guy. But your ability to remain unfazed amid his disrespect or disinterest is what really helps him determine whether you are a high-value woman or not. A man will not always act in ways that are favorable to you. Sure, some men are scumbags, but not all men who act thoughtlessly towards you should be categorized this way. Therefore, if you want to separate the good guys from the time wasters it's important to act with poise. This book was designed for women who want to go from being powerless to being irresistible to men. In it, you'll discover the secrets to having more confidence and power with men and dating as you learn the beliefs, attitudes, dating rules, "love habits", and seduction secrets of the high-value woman. Here's what you're going to learn inside: What to say when you want to "slow things down" with a guy without losing his interest in you. The most seductive first date "good deed" that can CAPTURE a man's desire and make him desperate to see you again. The #1 key to conquering a man's heart during the early dating stages. (This is something most women only figure out after YEARS of painful trial and error.) How to get a boyfriend by avoiding a HUGE relationship-killing mistake most women make within the first few weeks of dating. The single most irresistible feminine attitude that easily overwhelms a man's emotions and makes it IMPOSSIBLE for him to get you off his mind. How to get a man to treat you like a top priority (instead of his Plan B) once you start dating him. How to maintain the "Queen's Composure" when men pull away and how to use it to make the good ones come RUNNING back to you. The "dating rules" high-value women use to quickly eliminate players and find Mr. Right. And much, much more... Would You Like to Know More? Get started right away and discover how to date like a high-value woman to get the guy you want without getting played. Scroll to the top of the page and select the "buy button" now.

Learn the unwritten "rules of the game" for succeeding in business Why, despite all the mentoring programs, executive training seminars, and corporate initiatives, are professional women still not where they want to be? And what can be done about it? Dr. Donna Brooks and Lynn Brooks interviewed more than a hundred Fortune 500 business leaders both men and women to discover the "Ten Secrets of Successful Men That Women Want to Know." Secret #1--Develop your personal brand Secret #2--Create an image and style that works for you Secret #3--Define your role as team leader or participant Secret #4--Develop a mentoring network Secret #5--Build effective networks Secret #6--Gain global experience and insights Secret #7--Take charge of your own career Secret #8--Develop winning communication skills Secret #9--Develop key leadership skills Secret #10--Develop the next generation of leaders Filled with true-life anecdotes and hard-won wisdom, "Ten Secrets of Successful Men That Women Want to Know" is an entertaining, insightful, and surprisingly candid look at how women can capitalize on their strengths and succeed in a competitive corporate environment. Why, despite all the mentoring programs, executive training seminars, working women's networks, and other initiatives, are professional women still not where they want to be? Why are many women stereotyped as less effective than men? Why are they frequently less visible? Is there really a set of unwritten "rules of the game" that women just don't know about? What can a woman manager do to avoid being stereotyped and to develop and showcase her skills and competencies, thereby gaining parity with men? In an attempt to answer those questions, Fortune 500 consultants Dr. Donna Brooks and Lynn Brooks undertook a landmark research project involving hundreds of executives and managers, "of both sexes," at many of the world's leading companies. In "Ten Secrets of Successful Men That Women Want to Know," the authors take you behind the facade of corporate political correctness to reveal how women in the workplace are "really" perceived and how those perceptions (or misperceptions) continue to keep many talented women from the success they deserve. Contrary to what many women believe, making it in the corporate world is as much about knowing how to "work" the organizational culture as it is about doing a superlative job. Working from their findings, Donna and Lynn Brooks have developed a set of ten powerful strategies that you can use to gain the skills and competencies that successful leaders draw on. Among other important lessons you'll learn are how to change stereotypes and gain visibility by cultivating a network, ways to develop a personal brand, and how to create a professional portfolio. You'll also discover the value of finding mentors who'll show you the ropes and advocates who'll champion your cause. And you'll uncover strategies for advertising your skills and accomplishments and for recognizing opportunities for advancement and seizing them. And throughout "Ten Secrets" you'll encounter many eye-opening true-life experiences of successful leaders who learned the "rules of the game" the hard way, and who, throughout the book, share their observations on the kinds of challenges facing ambitious women in the corporate, nonprofit, and government sectors. You'll also read surprisingly candid comments by executives who reveal what they "really" think about women and men in the workplace--why they succeed and why they don't, their fundamental strengths and weaknesses, and how women can best capitalize on their strengths. The first book to reveal how men think differently about success and what women need to do differently to move up the ladder, "Ten Secrets of Successful Men That Women Want to Know" is must-reading for women managers at every stage of their careers.

Women's Secrets provides the first modern translation of the notorious treatise De secretis mulierum, popular throughout the late middle ages and into modern times. The Secrets deals with human reproduction and was written to instruct celibate medieval monks on the facts of life and some of the ways of the universe. However, the book had a much more far-reaching influence. Lemay shows how its message that women were evil, lascivious creatures built on the misogyny of the work's Aristotelian sources and laid the groundwork for serious persecution of women. Both the content of the treatise and the reputation of its author (erroneously believed to be Albertus Magnus) inspired a few medieval scholars to compose lengthy commentaries on the text, substantial selections from which are included, providing further evidence of how medieval men interpreted science and viewed the female body.
