Information
security risk
management, or
ISRM, is the

Page 131/153

process of
managing risks
associated with
the use of
information
technology. It
involves
identifying,
assessing, and
treating risks to
the
confidentiality,

integrity, and availability of an organization ' s assets.

DIRECTORATE.

In May 2010, the
Secretary of
Homeland
Security
established a
Policy for
Integrated Risk
Management
(IRM). Central to

Page 138/153

this policy is the premise that security partners can most effectively manage risk by working together, and that management capabilities must be built, sustained, and

integrated with
Federal, state,
local, tribal,
territorial,
nongovernmental
, and private
sector homeland
security
partners.
