## Understanding China through yin and yang - SHINE News

It self-referentially announces the novel that we are reading as Tianyi's livre à venir. The fluvial concept of time – with 'le fleuve comme symbole du temps' ( Le Dit , p. 190) – is reformulated in a philosophical language that juxtaposes Western, and notably poststructuralist, discourses with Daoist vocabulary.

BM-MSCs are usually isolated and purified through their physical adherence to the plastic cell culture plate . Several techniques have been used to purify or enrich MSCs including antibody-based cell sorting [17] , low and high-density culture techniques [18] , [19] , positive and negative selection method [20] , frequent medium changes [21] , and enzymatic digestion approach [22] .
