The first in a series of highly practical, hands on, step-by-step photographic manuals, Replacing Your Boat's Engine fills a gap in the market for the DIY boat builder and repairer. It is a subject covered only in piecemeal fashion by the yachting press, which, like general boat repair manuals, can't go into the level of detail Mike Westin does. This is a visual, hand-holding guide, dwelling on the practical details of replacing a boat's engine and related systems as it explains each procedure rather than focussing on the theory (which is relegated to an appendix, for those who wish to go further). Anyone who wishes to upgrade their boat's engine or replace an ailing or broken engine will find this step-by-step illustrated book a hand-holding godsend.

The anthrax attacks in September and October 2001 highlighted the need to develop medical countermeasures. The Project BioShield Act of 2004 authorized the Department of Health and Human Services (HHS) to procure countermeasures for a Strategic National Stockpile. However, in December 2006, HHS terminated the contract for a recombinant protective antigen (rPA) anthrax vaccine because VaxGen failed to meet a critical contractual milestone. Also, supplies of the licensed BioThrax anthrax vaccine already in the stockpile will start expiring in 2008. GAO was asked to identify (1) factors contributing to the failure of the rPA vaccine contract and (2) issues associated with using the BioThrax in the stockpile. GAO interviewed agency and industry officials, reviewed documents, and consulted with biodefense experts.

A world list of books in the English language.

\* Outboard motor repair for the average guy \* Fix up an old outboard and SAVE \$1000 or more compared to buying a new motor! With a little know-how and a few common tools, you can fix an old motor—bring it back from the dead. Sometimes all it takes is a squirt of WD-40 into the cylinder and a new spark plug. Or a new set of points and condensers—which do not require expert knowledge or black magic to install. Maybe the carburetor needs cleaning and adjusting. You can do it! Max E. Wawrzyniak III is an outboard motor guru. He advises you to find an old motor at a yard sale for \$100 or so (and he tells you exactly which ones to look for), and fix it up—rather than spending \$1500 or more on a new motor. He is a big fan of "cheap power." Get on the water with money left in your pocket. With a basic understanding of how these motors work, a little logical thinking, and a few hours' work, you can go boating for a fraction of what everyone else has to pay. Also—for the boater who already owns an outboard motor of any age—this book demystifies these internal-combustion marvels that can bring such frustration if they malfunction. You'll learn how they work, and the simple things you can do to keep them running forever. What Max teaches are not only money-saving skills, but can also be life-saving, as you will no longer be helpless in the face of engine trouble on the water. His clear instructions and over one hundred color photographs will make anyone into a capable outboard mechanic. INCLUDES: What to Buy, Where to Find It, Tools Needed and Where to Begin, The Ignition System, Carburetors, Water Pump Repairs, Recoil Starters, Fuel Tanks, Propellers, Lower Units, Emergency Shut-Down, Fuel Pump Conversion, Remote Controls: Shift and Throttle, Remote Control: Steering, Tiller Conversion, Trouble-Shooting, and Onboard Spares and Tools. This book has always been very popular and well-used in its print edition. Now it's available as an e-book so you can load it into your phone or tablet and always have this wealth of repair / maintenance information at your fingertips, even when out on your boat.

Winner of the first Dora Mavor Moore Award for Outstanding New Play, Maggie and Pierre chronicles the public and private relationship between Pierre Trudeau and Margaret Trudeau from 1974-1980. In this mock epic tale three characters, Pierre, Margaret, and Henry, a newspaper reporter navigate the landscape of a changing nation and opposing ideals. The Duchess tells the story of Wallis Simpson, the infamous woman for whom Edward VIII abdicated his throne in 1936. Wallis was brazen and sexual, and unintentionally steered the course of British history as she captivated the king. An inspired epic, The Duchess traverses between a straightforward narrative and magic realism.

Mercury/Mariner 75-250 HP Two-Stroke 1998-2009

"Covers all 3-150 HP, 1-4 cylinder 2-stroke models"--Cover.

The aim of this book, with its superb step by step photographs and detailed diagrams is to enable every owner to understand the workings of an outboard motor (2 or 4 stroke) and be able to fix it with relative ease. It includes: an explanation of the different parts that make up the engine and how they interact; how fuel is transformed into propulsion; regular maintenance and repair worksheets to help even the most mechanically ignorant to work on their outboard engine with confidence; the most common causes of breakdown; troubleshooting tables to allow you to diagnose and fix the most common engine problems and advice on how to winterize your outboard in one short afternoon. After reading this book, your outboard will no longer be a potential bother to you but an ally for better boating.

"Covers all all-gasoline engines--includes Alpha, Bravo, Blackhawk and all inboard transmissions"--Cover.

Offering a compelling and personal look at both famous and little-known men and women who participated in an immensely colorful and rewarding sport, this book looks at the period of vintage outboard racing from the late 1940s to the late 1960s. Today, the American Powerboat Association oversees motorboat racing in America. This book takes racing enthusiasts behind the scenes to tell how the organization grew and describes its highly visible struggles. Also covered is the life of the great journalist of the sport, Hank Bowman, and the increasingly popular hobby of collecting racing paraphernalia, motors, accessories, toys, and games. This is a book for those who lived the postwar story of American outboard boat racing and for those nostalgic enthusiasts and collectors who wish they could.
