Presenting a communicational perspective on the British empire in India during the 20th century, the book seeks to examine how, and explain why, British proconsuls, civil servants and even the monarch George V, as well as Indian nationalists, interacted with the media, primarily British and American, and with what consequences.

Combining entertainment and education, India's most beloved comic book series, Amar Chitra Katha, or "Immortal Picture Stories," is also an important cultural institution that has helped define, for several generations of readers, what it means to be Hindu and Indian. Karline McLain worked in the ACK production offices and had many conversations with Anant Pai, founder and publisher, and with artists, writers, and readers about why the comics are so popular and what messages they convey. In this intriguing study, she explores the making of the comic books and the kinds of editorial and ideological choices that go into their production.

Since the late 1970s civil war has left Sri Lanka in an almost permanent state of crisis; conventional histories of the country by liberal and Marxist scholars in the last two decades have thus tended to focus on the state's failure to accommodate the needs and demands of the minorities. The entire history of the twentieth century has been tied to this one key issue. Sri Lanka in the Modern Age offers a fresh perspective based on new research. Above all, the author has written a history of the peoples of Sri Lanka rather than a history of the nation-state.

Inspired by transnational research on medieval state formation, this book presents a comprehensive study of the political incorporation and subsequent judicial and administrative integration of Iceland, the Faroes, Shetland, and Orkney, into the Norwegian realm c. 1195-1397.  
The author intially intended to call this noel, " The Lyrical Age." The lyrical age, according to Kundera, is youth, and this novel, above all, is an epic of adolescence; an ironic epic that tenderly erodes scarosanct values: childhood, motherhood, revolution, and even poetry. Jaromil is in fact a poet. His mother made hima poet and accompanies him (figuratively) to his love bed and (literally) to his deathbed. A ridiculous and touching character, horrifying and totally innocent ("innocence with its bloody smile" ), Jaromil is at the same time a true poet. He's no creep, he's Rimbaud. Rimbaud entrapped by the communist revolution, entrapped in a somber farce.

REACHING NEW HEIGHTS ON SOLO FLIGHTS!!! Sometimes a busy, mature housewife just needs a little alone time, y'know? Some time to get in touch with herself... to recharge her batteries. Which sometimes means draining a few batteries. And a little baby oil. Or the garden hose. There might be a spatula involved. Possibly a banana. And what's Mom doing with her teenage daughter's class photo? From the kitchen to the laundry room, in the backyard and in the bedroom, and even at the store, these intimate personal moments are captured in loving detail in this gallery of sensuously shaded pencil drawings by Rebecca, who obviously knows a thing or two (or seven hundred) about XXX-rated suburban sexuality.

Strength of Materials for Technicians covers basic concepts and principles and theoretical explanations about strength of materials, together with a number of worked examples on the application of the different principles. The book discusses simple trusses, simple stress and strain, temperature, bending, and shear stresses, as well as thin-walled pressure vessels and thin rotating cylinders. The text also describes other stress and strain contributors such as torsion of circular shafts, close-coiled helical springs, shear force and bending moment, strain energy due to direct stresses, and second moment of area. Testing of materials by tests of tension, compression, shear, cold bend, hardness, impact, and stress concentration and fatigue is also tackled. Students taking courses in strength of materials and engineering and civil engineers will find the book invaluable.

This volume brings together sixteen articles on the religions, literatures and histories of South and Central Asia in tribute to Patrick Oliveile, one of North America 's leading Sanskritists and historians of early India. Over the last four decades, the focus of his scholarship has been on the ascetic and legal traditions of India, but his work as both a researcher and a teacher extends beyond early Indian religion and literature. ' Religion and Identity and South Asia and Beyond ' is a testament to that influence. The contributions in this volume, many by former students of Oliveile, are committed to linguistic and historical rigor, combined with sensitivity to how the study of Asia has been changing over the last several decades.

Explores the passions and contradictions--both human and political--that turned the prolific and brilliant painter, Diego Rivera, into an increasingly universal cultural figure Diego Rivera was a revolutionary painter in more ways than one. Attending art school at 11, by his twenties he was counted among the most influential figures of the Parisian art scene of the early 20th century, including Picasso, Modigliani, Braque, and Gris. Rivera's murals, both in his native Mexico and the United States, reflect the contradictory turbulence of his character and times. He met Lenin in Paris, Stalin in Moscow, and offered refuge to Trotsky during his Mexican exile. Meanwhile, his work was commissioned by giants of capitalism: Henry Ford and John D. Rockefeller. Rivera's indefatigable industry was matched by his zest for life, accumulating hundreds of lovers and four wives--including Frida Kahlo, whose formidable partnership is also one of the great love stories of art history. This beautifully realized graphic novel tells the story of the extraordinary life and times of an artist for whom myth and reality fused.

Twelve Years a Slave (1853) is a memoir and slave narrative by Solomon Northup, as told to and edited by David Wilson. Northup, a black man who was born free in New York, details his kidnapping in Washington, D.C. and subsequent sale into slavery. After having been kept in bondage for 12 years in Louisiana by various masters, Northup was able to write to friends and family in New York, who were in turn able to secure his release. Northup's account provides extensive details on the slave markets in Washington, D.C. and New Orleans and sugar cultivation on major plantations in Louisiana.

Illustrations used for story-telling and mirth-making have enlivened Asian walls, scrolls, books, public and private places, and artifacts for millennia. Often playful and humorous, Asian pictorial stories lent conspicuous elements to contemporary comic art, particularly with their use of narrative nuance, humor, satire, and dialogue. Illustrating Asia is a fascinating book on a subject that is of wide and topical interest. All of the articles consider cartoon and/or comic art in the historical and social setting of seven South, Southeast, and East Asian countries: India, Taiwan, Malaysia, Indonesia, Sri Lanka, China, and Japan. The contributors treat comic and narrative art—including comic books, comic strips, picture books, and humor and fan magazines—in both historical and socio-cultural perspectives, as well as portrayals of ancient Chinese philosophy, gender, and the enemy in cartoons and comics. Contributors: Laine Berman, John A. Lent, Fusami Ogi, Rei Okamoto, Ronald Provencher, Aruna Rao, Kuivi Shen, Shimizu Isao, Shu-chu Wei, Yingjin Zhang.
