S-RockMite QRP Kit - files.banggood.com

RockMite operation: The RockMite-20 operates on approximately 14060 Khz. The microcontroller provides a 'shift' signal to the Local Oscillator. This signal changes state upon key-down and key-up and provides roughly 700 Hz of frequency shift. The RockMite contains a built-in Iambic Keyer. Dot and Dash inputs are not firmware-reversible but may ...
