The Cat Encyclopedia by Esther J.J.  
Verhoef-Verhallen

The cat (*Felis catus*) is a domestic  
species of small carnivorous mammal. It is  
the only domesticated species in the  
family Felidae and is often referred to as  
the domestic cat to distinguish it from  
the wild members of the family. A cat can  
either be a house cat, a farm cat or a

feral cat; the latter ranges freely and avoids human contact.
