

The Mayan And Other Ancient Calendars

Ancient Mayan Astronomy: the Sun, Moon, and Planets

Maya Culture and Civilization - TripSavvy

Maya Civilization The ancient Maya civilization occupied the eastern third of Mesoamerica, primarily the Yucatan Peninsula. The topography of the area greatly varied from volcanic mountains, which comprised the highlands in the South, to a porous limestone shelf, known as the Lowlands, in the central and northern regions.

When Mayan glyphs were finally deciphered it became clear that the Maya were as interested in earthly matters as other Mesoamerican civilizations. Mathematics, Calendar, and Astronomy The Ancient Maya used a numerical system based on just three symbols: a dot for one, a bar for five and a shell which represented zero.

The Mayan And Other Ancient

The study of heavenly cycles is common to most ancient cultures. The ancient Egyptians, Chinese, and Babylonians all tried to make sense of the year. But it fell to the later Mesoamerican Maya to create a series of calendars that could be cross referenced. In doing so, the Maya discovered many strange numerical harmonics.
