

The Physiology Coloring Book 2nd Ed

An Easier and Better Way to Learn Anatomy. The human body is wondrously complex, with 700 muscles, 206 bones, and countless cells and tissues ... but studying and remembering all of them can be overwhelming! Instead of rote memorization, the Anatomy Coloring book helps you take an interactive approach to learning anatomy through coloring. Not only can this take less time than memorizing from textbooks and flashcards, but the process thoroughly fixes anatomical concepts in your mind for easier visual recall later.

Why use this coloring book? For more than 35 years, The Anatomy Coloring Book has been the #1 best-selling human anatomy coloring book! A useful tool for anyone with an interest in learning anatomical structures, this concisely written text features precise, extraordinary hand-drawn figures that were crafted especially for easy coloring and interactive study. Organized according to body systems, each of the 162 two-page spreads featured in this book includes an ingenious color-key system where anatomical terminology is linked to detailed illustrations of the structures of the body. When you color to learn with The Anatomy Coloring Book, you make visual associations with key terminology, and assimilate information while engaging in kinesthetic learning. Studying anatomy is made easy and fun! The Fourth Edition features user-friendly two-page spreads with enlarged art, clearer, more concise text descriptions, and new boldface headings that make this classic coloring book accessible to a wider range of learners.

Grant's Anatomy Coloring Book uses an interactive approach to help students deepen and reinforce their anatomical knowledge. Integrating visual and kinesthetic learning activities with an efficient, high-yield review of essential information, it's the perfect way for students to deepen their grasp of the anatomy they need to know for their courses, labs, and exams!

Reinforce your knowledge of neuroanatomy, neuroscience, and common pathologies of the nervous system with this active and engaging learn and review tool! Netter's Neuroscience Coloring Book by Drs. David L. Felten and Mary Summo Maida, challenges you to a better understanding of the brain, spinal cord, and peripheral nervous system using visual and tactile learning. It's a fun and interactive way to trace pathways and tracts, as well as reinforce spatial, functional, and clinical concepts in this fascinating field. More than "just" a coloring book, this unique learning tool offers: More than 100 key topics in neuroscience and neuroanatomy, using bold, clear drawings based on classic Netter art. Clinical Notes that bridge basic science with health care and medicine. Workbook review questions, and bulleted lists throughout to reinforce comprehension and retention. Expert Consult eBook version included with purchase. This enhanced eBook experience allows you to search all of the text, figures, and references from the book on a variety of devices.
