**The Pyramids by
Miroslav Verner**

Despite centuries of
research into the
pyramids of Giza,
there has still been
no definitive
explanation as to
how the ancient

Page 3/87

Egyptians cut,
transported, and
assembled millions
of limestone and
granite blocks, each
weighing an average
of 2.3 metric tons.
I think that the most
important aspect of
Egyptian
archaeology that we
discussed in class is

Page 4/87

the pyramids.
Besides being
enormous feats of
architectural genius
for the time period,
these structures
offered a fairly
steady time table
with which to follow
religious practices as
well as pharaonic
reigns.
