One of Oprah Daily's 20 Favorite Books of 2021 • Selected as one of Pitchfork's Best Music Books of the Year " One of the best books of its kind in decades. " —The Wall Street Journal An epic achievement and a huge delight, the entire history of popular music over the past fifty years refracted through the big genres that have defined and dominated it: rock, R&B, country, punk, hip-hop, dance music, and pop Kelefa Sanneh, one of the essential voices of our time on music and culture, has made a deep study of how popular music unites and divides us, charting the way genres become communities. In Major Labels, Sanneh distills a career ' s worth of knowledge about music and musicians into a brilliant and omnivorous reckoning with popular music—as an art form (actually, a bunch of art forms), as a cultural and economic force, and as a tool that we use to build our identities. He explains the history of slow jams, the genius of Shania Twain, and why rappers are always getting in trouble. Sanneh shows how these genres have been defined by the tension between mainstream and outsider, between authenticity and phoniness, between good and bad, right and wrong. Throughout, race is a powerful touchstone: just as there have always been Black audiences and white audiences, with more or less overlap depending on the moment, there has been Black music and white music, constantly mixing and separating. Sanneh debunks cherished myths, reappraises beloved heroes, and upends familiar ideas of musical greatness, arguing that sometimes, the best popular music isn ' t transcendent. Songs express our grudges as well as our hopes, and they are motivated by greed as well as idealism; music is a powerful tool for human connection, but also for human antagonism. This is a book about the music everyone loves, the music everyone hates, and the decades-long argument over which is which. The opposite of a modest proposal, Major Labels pays in full.

An exploration of gender and desire from our most exciting new public intellectual " Everyone is female, and everyone hates it. " Females is Andrea Long Chu ' s genre-defying investigation into sex and lies, desperate artists and reckless politics, the smothering embrace of gender and the punishing force of desire. Drawing inspiration from a forgotten play by Valerie Solanas—the woman who wrote the SCUM Manifesto and shot Andy Warhol—Chu aims her searing wit and surgical intuition at targets ranging from performance art to psychoanalysis, incels to porn. She even has a few barbs reserved for feminists like herself. Each step of the way, she defends the indefensible claim that femaleness is less a biological state and more a fatal existential condition that afflicts the entire human race— men, women, and everyone else. Or maybe she ' s just projecting. A thrilling new voice who has been credited with launching the " second wave " of trans studies, Chu shows readers how to write for your life, baring her innermost self with a morbid sense of humor and a mordant kind of hope.

Named one of the most important nonfiction books of the 21st century by Entertainment Weekly, Slate, Chronicle of Higher Education, Literary Hub, Book Riot, and Zora A tenth-anniversary edition of the iconic bestseller—"one of the most influential books of the past 20 years," according to the Chronicle of Higher Education—with a new preface by the author "It is in no small part thanks to Alexander's account that civil rights organizations such as Black Lives Matter have focused so much of their energy on the criminal justice system." —Adam Shatz, London Review of Books Seldom does a book have the impact of Michelle Alexander's The New Jim Crow. Since it was first published in 2010, it has been cited in judicial decisions and has been adopted in campus-wide and community-wide reads; it helped inspire the creation of the Marshall Project and the new \$100 million Art for Justice Fund; it has been the winner of numerous prizes, including the prestigious NAACP Image Award; and it has spent nearly 250 weeks on the New York Times bestseller list. Most important of all, it has spawned a whole generation of criminal justice reform activists and organizations motivated by Michelle Alexander's unforgettable argument that "we have not ended racial caste in America; we have merely redesigned it." As the Birmingham News proclaimed, it is "undoubtedly the most important book published in this century about the U.S." Now, ten years after it was first published, The New Press is proud to issue a tenth-anniversary edition with a new preface by Michelle Alexander that discusses the impact the book has had and the state of the criminal justice reform movement today.

"An inspiring guide for how to go from dreamer to do-er, from someone who's been there, done that and wrote the book on it." —Chrissy Teigen, New York Times bestselling author of Cravings and Cravings: Hungry for More "If you want to start a successful business, and do it in style, get this book and learn from its wise and empowering lessons." —Mindy Kaling, New York Times bestselling author of Is Everyone Hanging Out Without Me? and Why Not Me? From entrepreneur and celebrity hairstylist Jen Atkin comes a smart and spirited guide to finding your voice and creating the life and career you deserve—along with a behind-the-scenes look into Jen's own wild and wonderful road to success. Hailed by the New York Times as "the most influential hair stylist in the world," Jen Atkin is a celebrated businesswoman, influencer, and stylist and friend to A-list celebrities like the Kardashians-Jenners and Chrissy Teigen. But Jen's success didn't arrive overnight. Her glamorous, jet-setting lifestyle came from years of hard work, humility, and hustle. In Blowing My Way to the Top, Jen shatters the illusion of effortless, instant success that permeates social media to reveal the sweat, dedication, and drive it really takes to make it. In this inspiring, insightful, and laugh-out-loud funny book, Jen chronicles her remarkable journey and shares what she's learned along the way. From growing up in a conservative Mormon community where girls were discouraged from pursuing their ambitions, to striking out on her own and finding success on the celebrity style circuit, to building the cult-status brand Ouai—Jen reveals with refreshing candor the lessons, mistakes, and memorable moments that have paved her road to success. Jen also offers insight into the values that have allowed her to thrive in the modern, digital landscape, including the importance of creating authentic content, investing in community, and building social conscious into the ethos of a business. And as a trailblazer in a male-dominated industry, Jen speaks frankly about the challenges she's faced and provides crucial advice for other women, from the importance of running your business like a feminist to building camaraderie amid the competition to learning to navigate the work and life issues that impact women most. At the end of the day, Jen has one simple message: If I can do it, you can too. Blowing My Way to the Top is destined to become the must-read career guide for a new generation, empowering readers everywhere with the permission to dream big—and the tools to make those dreams a reality.

"How to Get a Job in Web Development" is designed for junior web developers. Whether you're coming from a coding bootcamp, are completely self-taught, or graduated from college with a tech-related degree, this book is for you. Written by RealToughCandy. In this book, you will learn how to: • Expertly craft the 'holy clover' of application materials: your resume, cover letter, GitHub page, and portfolio. • Leverage the power of LinkedIn, Meetups, and social media. • Handle follow-up emails and phone calls. • Prepare for the multiple types of interviews you will encounter, whether via phone, video conference, or in person. • Strategically apply to jobs so you can maximize your salary demands during negotiation. • Efficiently organize and prioritize the jobs you've applied to. • Craft results-driven email check-ins with your potential employer. • Reduce your vulnerabilities for discrimination. • And much, much more! No awkward whiteboard interviews. No hour-long explanation of Big O notation. Just practical, actionable steps that will put you far ahead of the pack when it comes to getting a job in web development. Now let's go get that job! "Just finished reading your book and all I can say is WOW! Mind you since May of 2016 I have taken about 6 online courses specifically looking for employment and around three of them were specifically for either how to get an IT or Web Developer job. These courses cannot hold a candle to the majority of the information you put in this book!" -George M., Web Developer WHY I WROTE THIS BOOK: When I started my web development journey, I was a lost hiker in the digital woods. I knew I wanted to build web apps, but didn't know what those people called themselves. Were they website builders? Programmers? The term 'software engineer' floated around a lot online -- was that my aspiration? Since I didn't know exactly what I was looking for, I spent a lot of time reading and watching materials that were nothing but discouraging: mock Google coding interviews with whiteboards and markers. Lots of articles and videos that name-dropped things like binary trees, Big O notation, and time complexity. Forum post upon forum post that gave away actual coding interview questions from the biggest tech companies in the world like Facebook, Google, and Microsoft. Making things worse, some web developers I had discovered on YouTube were talking about a really good, popular book for coding interviews. I checked it out and once again my stomach sank. "I'm never going to make it in this field," I said to myself. "I've been studying and practicing and building projects for months, and I still have no idea what these people are talking about." What they didn't tell me was that the book is geared towards senior software engineers trying to get a job with Amazon and Google. I wanted to quit my coding journey. In fact, I did quit. The difference was, I didn't stay quit. Something told me to keep pushing forward, keep building projects to put in my portfolio and Github, keep reaching out and trying to find clients who needed websites. I kept pushing until I got a job as a fullstack web developer at a data company. As it turns out, the internet isn't very generous to our career field. Beginners are especially marginalized. There aren't any quality one-stop resources for discovering one of the most important questions -- if not the most important question -- web developers have. "How do I get a job in this field?" I wanted to change the junior web developer tech landscape with this book. My goal is for every junior developer who reads this to find a job. And if you take the recommended actions in this book, you can do it.

Our parents seldom outlive us, and we need to get to know them before they die. Includes 300 questions to ask your parents before they go.

In this One Book, One New York 2019 nominee from the author of National Book Award Finalist Pachinko, the Korean-American daughter of first-generation immigrants strives to join Manhattan's inner circle. Meet Casey Han: a strong-willed, Queens-bred daughter of Korean immigrants immersed in a glamorous Manhattan lifestyle she can't afford. Casey is eager to make it on her own, away from the judgements of her parents' tight-knit community, but she soon finds that her Princeton economics degree isn't enough to rid her of ever-growing credit card debt and a toxic boyfriend. When a chance encounter with an old friend lands her a new opportunity, she's determined to carve a space for herself in a glittering world of privilege, power, and wealth--but at what cost? Set in a city where millionaires scramble for the free lunches the poor are too proud to accept, this sharp-eyed epic of love, greed, and ambition is a compelling portrait of intergenerational strife, immigrant struggle, and social and economic mobility. Addictively readable, Min Jin Lee's bestselling debut Free Food for Millionaires exposes the intricate layers of a community clinging to its old ways in a city packed with haves and have-nots.
