

Tourism And Poverty Reduction Principles And Impacts In Developing Countries

Principles of Sustainable Tourism. Tourism Concern, 1991 in association with the Worldwide Fund for Nature(WWF) gives 10 principles for sustainable tourism.These are following as: 1) Using resources sustainably. The conservation and sustainable use of resources- natural, social and cultural – is crucial and makes long-term business sense.

Over the past decade, there have been an increasing number of publications that have analysed and critiqued the potential of tourism to be a mechanism for poverty reduction in less economically developed countries (LEDCs). This book showcases work by established and emerging researchers that provides new thinking and tests previously made assumptions, providing an essential guide for students ...
