Mystic Mac is the name and looking into the future is the game, so I knew five days before I travelled to Cartagena for the Daytona 600 launch that Triumph had built a new supersports bike that could take on the latest offerings from Japan and Italy.

### **Daytona 600 (2003 - 2005) review | Visordown**

The 2020 Triumph Daytona Moto2 765 is a limited edition motorcycle, with a run of 765 units, that celebrates the return of Triumph to international motorcycle competition as the exclusive engine supplier for the FIM Moto2 Championship, the feeder series of MotoGP.

### **2020 Triumph Daytona Moto2 765[Specs & Info] | wBW**

Triumph's core handling principles of agility and stability are taken to extremes with the Daytona 675. Repeatedly tested and developed, the Daytona 675's suspension, frame geometry, weight balance, braking and steering response are honed to a finely-tuned point of perfection, working in total harmony with the engine to give complete control and confidence under all riding conditions.

### **Daytona 675 | Triumph Motorcycles | Triumph Motorcycles**

The new Triumph company based at Hinckley, which was started after the original Triumph company went into administration, has made a far better known and more numerous Daytona 600. It is powered by a liquid-cooled 599 cc (36.6 cu in) four-cylinder in-line engine and was superseded by the Daytona 650 from 2005.

### **Triumph Daytona 600 - Wikipedia**

Introduced in 2006, the Triumph Daytona 675 is a three-cylinder sport bike, and the smallest of the Triumph triples. Built by Triumph Motorcycles, it replaced their four-cylinder Daytona 650. The 675 proved to be remarkably light, nimble and powerful; at a maximum of 128 bhp it was also very quick,

and it was very successful against the Japanese 600 cc competition.
