The definitive Tolkien companion—an indispensable guide to *The Hobbit*, *The Lord of the Rings*, and more, from the author of *The Road to Middle-earth*. This “highly erudite celebration and exploration of Tolkien’s works [is] enormous fun,” declared the *Houston Chronicle*, and Tom Shippey, a prominent medievalist and scholar of fantasy, “deepens your understanding” without “making you forget your initial, purely instinctive response to Middle-earth and hobbits.” In a clear and accessible style, Shippey offers a new approach to Tolkien, to fantasy, and to the importance of language in literature. He breaks down *The Lord of the Rings* as a linguistic feast for the senses and as a response to the human instinct for myth. Elsewhere, he examines *The Hobbit*’s counterintuitive relationship to the heroic world of Middle-earth; demonstrates the significance of *The Silmarillion* to Tolkien’s canon; and takes an illuminating look at lesser-known works in connection with Tolkien’s life. Furthermore, he ties all these strands together in a continuing tradition that traces its roots back through Grimms’ *Fairy Tales* to *Beowulf*. “Shippey’s commentary is the best so far in elucidating Tolkien’s lovely myth,” wrote *Harper’s Magazine*. *J.R.R. Tolkien: Author of the Century* is “a triumph” (*Chicago Sun-Times*) that not only gives readers a deeper understanding of Tolkien and his work, but also serves as an entertaining introduction to some of the most influential novels ever written.

Taps into Your Innate Ability to Understand Complex Concepts Visually Open channel flow can be understood through just a few simple equations, graphs, and computational tools. For students, the book comes with downloadable animations that illustrate basic concepts visually with synchronous graphical presentation of fundamental relationships.
