

Value Creation And The Future Of News Organization Why And How Journalism Must Change To Remain Relevant In The Twenty First Century

Value Creation in Power and Utilities 2020 | BCG

Value Creation of the Future A look into the year 2030 Digital Transformation will radically change business models and business processes in the next few years. New technologies are emerging and changing the way we plan and manage our supply chains across the entire product lifecycle.

This process is complicated by the fact that while some of the assets of a firm have already been made, and are thus assets-in-place, a significant component of firm value reflects expectations about future investments. Thus, to value a firm we need to measure not just the cash flows from investments already made, but also estimate the expected value from future growth.
