A. Web 2.0 tools As with all new tools—the computer and Internet, Web 2.0 tools are quickly became common to adopt a new way for communication and interaction.

Critics of the term claim that "Web 2.0" does not represent a new version of the World Wide Web at all, but merely continues to use so-called "Web 1.0" technologies and concepts. First, techniques such as Ajax do not replace underlying protocols like HTTP, but add a layer of abstraction on top of them. Second,
