Engine with discounts prices.
Sometimes a 9.9 HP motor is better than
a 15 HP motor. The 9.9 motor can go
slower than the 15 HP motor. This is an
advantage for manipulating a small

Page 3/112

yamaha-9-9-15-hp-2000-2004-online-service-repair-manual

sailboat into a dock safely. For fisherman, it is possible to do the slow trolling for relatively inactive fish like trout. Slow trolling is possible with a 9.9 HP outboard but not with a 15 HP outboard--it will stall at very low speeds.

Yes, and note the three reed valve assembly has a 63W prefix. 63W being for the 15 HP motor. 63V prefix is for a 9.9 HP assembly. Same as the prefix for

the carburetor. \$65 bucks for the 15 assembly means a cheap solution to get 50% more HP. Last edited by boscoe99; 05-20-2017, 02:42 PM.

9.9hp to 15hp - Yamaha Outboard ...

Re: Yamaha 9.9 to 15 hp You have to grind the carb to 19,5 mm, (15 mm on 9.9) Main Jet to 135, move the reedstoppers from about 1.5 mm to 6 mm, newer reeds only 2

Page 75/112

reeds and difficult to change to 3 reeds, if you want more power contact the # 1 tuning guy HERRA RAANA, he has tuned well over 20 hp. from these engines
<http://www.peramoottoripurkaamo.fi/>

Yamaha 9.9 to 15 hp Page: 1 - iboats Boating Forums | 147108

Sometimes a 9.9 HP motor is better than a 15 HP motor. The 9.9 motor can go slower than the 15 HP motor. This is an advantage for

Page 77/112

yamaha-9-9-15-hp-2000-2004-online-service-repair-manual

manipulating a small sailboat into a dock safely. For fisherman, it is possible to do the slow trolling for relatively inactive fish like trout. Slow trolling is possible with a 9.9 HP outboard but not with a 15 HP outboard--it will stall at very low

Page 78/112

yamaha-9-9-15-hp-2000-2004-online-service-repair-manual

speeds.

Yamaha Outboards - Number 1

To make a Yamaha 9.9hp 2 stroke
a 15 hp. Install a 15 hp reed pack, it

Page 82/112

has 6 reed not 4. This is simple, it is right behind the carb. That helps a lot but does not get you all the way there. the next thing you need to do is put a new 15 hp carb on it. the 15 hp carb has a 19mm air venturi and the 9.9 only has a 15mm, 20%

Page 83/112

yamaha-9-9-15-hp-2000-2004-online-service-repair-manual

more air to a 15.

Also remember that going from 9.9

Page 98/112

yamaha-9-9-15-hp-2000-2004-online-service-repair-manual

to 15HP is a 50% increase, do you think reeds alone will give you 50%? even though the parts may look the same (by part number) sometimes, manufacturers only supply the (in this case) 15HP part for certain things, because the 15

Page 99/112

will work fine in the 9.9, but the 9.9 part will not work in the 15, well.. not without maybe running lean or something, may not be the case, but it does happen like that.

Forum - iboats Boating Forums**

Yes, and note the three reed
valve assembly has a 63W

Page 102/112

yamaha-9-9-15-hp-2000-2004-online-service-repair-manual

prefix. 63W being for the 15 HP motor. 63V prefix is for a 9.9 HP assembly. Same as the prefix for the carburetor. \$65 bucks for the 15 assembly means a cheap solution to get 50% more HP. Last edited by boscoe99;
