Have you hit a crossroads in your career or life? Do you feel stuck and know you have more to offer the world than what you are doing right now? If you are yearning to make a change in life, Ride Of Your Life will be your inspiration and guide. Back in 2010, research scientist and entrepreneur Ran Zilca set out from his home in New York on a motorcycle, bound for California in search of the next chapter in his life. Along this soul-searching journey, he spent hundreds of hours in contemplation on the road, met with fellow travelers from all walks of life, and interviewed leading experts in research labs, spiritual centers, and temples all across the country. Six-thousand miles later, he returned home, sold his company, and moved to a different continent. Ride of Your Life chronicles this transformative journey, sharing the collective wisdom Ran learned from one-on-one discussions with spiritual leaders and researchers, including Deepak Chopra, Phil Zimbardo, and Sonja Lyubomirsky. This groundbreaking book in the field of positive psychology is part travel memoir, part spiritual compass, and a practical handbook for personal transformation. Ride of Your Life will help you awaken your dreams and answer your own calling for a happier and more meaningful life.

Service, repair and maintenance manual.

Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set.

Motorcycle riders from all walks of life--from Main Street to Wall Street, Hollywood to Washington, D.C.-- are invited to peel back their "badass" masks and answer one simple question: what is the meaning of life? Their answers expose the motorcycle community's lesser-known philosophical and charitable nature and help to smash the typical motorcycle-rider stereotype. Joining the "regular folks" interviewed are celebrities, including Peter Fonda, Gen. Tommy Franks, John Paul DeJoria, Jillian Michaels, Kyle Petty, Carey Hart, and Norman Reedus, along with a former chair of the Joint Chiefs of Staff, a Congressman, a Senator, a former NASA astronaut, governors, military generals, actors, rock n'roll and country artists, corporate executives, and NFL, NBA, MLB sports figures. Whether you drive on four wheels or straddle a "wild thang" on two, these voices are sure to enlighten and entertain.
