Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

The Ultimate History of Fast Bikes

Books in Print Supplement

More than a memoir of a custom cafe racer build this book is a tribute to a teacher who inspired young people to be creative with their minds and capable with their hands. Growing up in Fargo, North Dakota in the 1970s and 80s, The Urban Monk had the opportunity to develop a love for machines, metal working and motorcycles. This book provides a glimpse into what life was like for the author and his young friends in Fargo during that time. It is also a poignant defense of industrial arts education in public schools. After an over three year effort building a custom cafe racer in his spare time and documenting the entire process in videos shared with the world on his YouTube channel Urban Monk TV, the author tells the story of how this project became more than a custom motorcycle build - it became a tribute to his middle school Metal Shop teacher who inspired him to go on to a life time of peaceful meditation in his garage with a wrench in his hand. Anyone interested in motorcycles, mechanics, do-it-yourself projects or a historical retrospective of life in 70s-80s Fargo will enjoy this pleasant read.

Creating Mr. Kortan

Zoe Rose never quite fit in. As the only kid in kindergarten with an enormous red afro, Zoe was taunted by the other little girls for refusing to share her "Annie" wig, even when she swore it was her own hair (it was). In second grade, after seeing her best friend ridiculed for wearing a dirty, pink, polka-dot party dress to school every day, she became obsessed with understanding what makes normal girls tick and why they're so cruel to the girls who never seem to "get it." And so Zoe begins a lifelong study of girl behavior, and by thirty, finds herself editor of Issues magazine. Determined to raid the locker room of the female psyche and rip open the frilly façade of femininity once and for all, she sets out to reform an entire nation of women, beginning with the readers of the most notorious magazine on Madison Avenue. It's the feminist vs. the fashionistas. Can Zoe stop girls from behaving badly toward other girls, and turn them into a strong, united force that can succeed in our male-dominated world? Or will her spectacularly warped sense of humor, pathetic wardrobe, and plethora of psychosomatic illnesses get her eaten alive? Zoe's willing to risk losing it all, including her mind, but she'll walk away with something she never dreamed she wanted: the little girl hiding inside of her.

Young and beautiful, Lois Pryce was a rising star at the BBC. Unbeknownst to her co-workers, Lois lived a parallel life as a biker babe with an overwhelming sense of wanderlust. So she packed in her career to ride her motorcycle on her own from the northernmost tip of Alaska to the southernmost tip of South America. Alone. Armed only with the Spanish words for 'caution' and 'cheese', Lois was rather under-prepared for multiple bear sightings, bribing her way through borders, spending a night in a Mexican brothel and crashing her bike in the wilds of Patagonia. She most certainly got the adventure she craved, and her pulse-pounding, soul-searching adventure has already attracted fans worldwide - a weblog that she kept whilst on her travels was receiving more than two-thousand hits a day. Her hilarious, brilliantly written travelog will appeal to anyone who's ever dreamt of jacking-it-all-in and running away to see the world.
