YDP brochureA4 - Home - Yanmar Benelux
YANMAR has been producing diesel engines since 1933, and today has manufactured over 15 million diesel engines ranging from 4.5 to 5,000 horsepower. Currently, more than one million YANMAR diesel engines are powering North America ' s leading edge mobile and stationary off-highway equipment. From construction equipment, generator sets, pressure washers and turf equipment to military ...

Diesel Pumps - Yanmar Industrial
YANMAR has evolved the just-in-time system, the state of the art of Japanese manufacturing, and realized its unique multiproduct mixed production line. The Biwa factory, its home YANMAR vertical water-cooled engines, is capable of more than 2000 models and 400,000 units per year.

Industrial Engines | YANMAR
With its 435cc engine, this is the most powerful trash pump of the Yanmar range. Maintenance, through rarely necessary, is easy as the casing cover and the inner casing come in a single block, so removal and refitting is a simple task.

Diesel Pumps - Yanmar Industrial
With a larger 320cc engine, this is the most powerful of Yanmar ' s fresh water pump range. Maintenance is easy, there are just 4 bolts to remove to do routine cleaning, although as a slot-in strainer comes as standard equipment this probably won ' t be something you ' ll be doing a lot of.

Diesel Pumps - Yanmar Industrial
This trash pump is ready for the really rough stuff. The twin bladed impeller is high chrome cast iron, and the liner is stainless steel. Designed to handle suspended particulate matter up to 31 mm diameter, it is easy to clean, with just 2 grip bolts needing loosening to gain access.
