Relates the history of the tractor and shows the changes in design that have resulted in the diesel-powered giants of today.

This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Causal questions like these arise on a regular basis, but most people likely have not thought deeply about how to answer them. This book helps you think about causality in a structured way: What is a cause, what are causes good for, and what is compelling evidence of causality? Author Samantha Kleinberg shows you how to develop a set of tools for thinking more critically about causes. You 'll learn how to question claims, identify causes, make decisions based on causal information, and verify causes through further tests. Whether it 's figuring out what data you need, or understanding that the way you collect and prepare data affects the conclusions you can draw from it, Why will help you sharpen your causal inference skills.

It started as the perfect story. Zippora Karz was a member of the famed New York City Ballet by the age of eighteen. By twenty she was starring as the Sugar Plum Fairy in The Nutcracker, dancing roles created by Jerome Robbins, and traveling the world. It was the stuff dreams are made of until, at age twenty-one, Karz was diagnosed with diabetes. Balancing ballet and her blood sugar would be a long and difficult struggle for Karz. In The Sugarless Plum, Karz shares her journey from denial, shame and miseducation about her illness to how she led an active, balanced and satisfying life as an insulin-dependent diabetic and soloist with one of the world's most famous ballet companies. The Sugarless Plum takes readers deep into the heart and soul of a young dancer, and is a remarkable testament to determination and perseverance.
